

Name: AJ Garner

Please let me know a little bit about you by answering the questions below. One page at most!

Why Clemson?

It was the most convenient school for my situation.

Where are you from?

Augusta, GA

What are your hobbies?

Exercising

What got you interested in computers?

I was made as a child to learn how to use computers so that I could teach my parents how to use them.

What do you think you plan to do with your computer science degree?

I want to do networking and datacenters.

What computer programming language would you choose for a software project...and why?

C/C++ because that is what I am most comfortable with.

What is your preferred development environment: Linux, MacOS or WinOS...and why?

MacOS because it is the most polished and well put together environment. The ecosystem is a big plus as well.
